

Restore File Backup Pokemon Go

Untuk proses restore file backup, pertama sekali anda perlu ke bahagian **Plugin**.

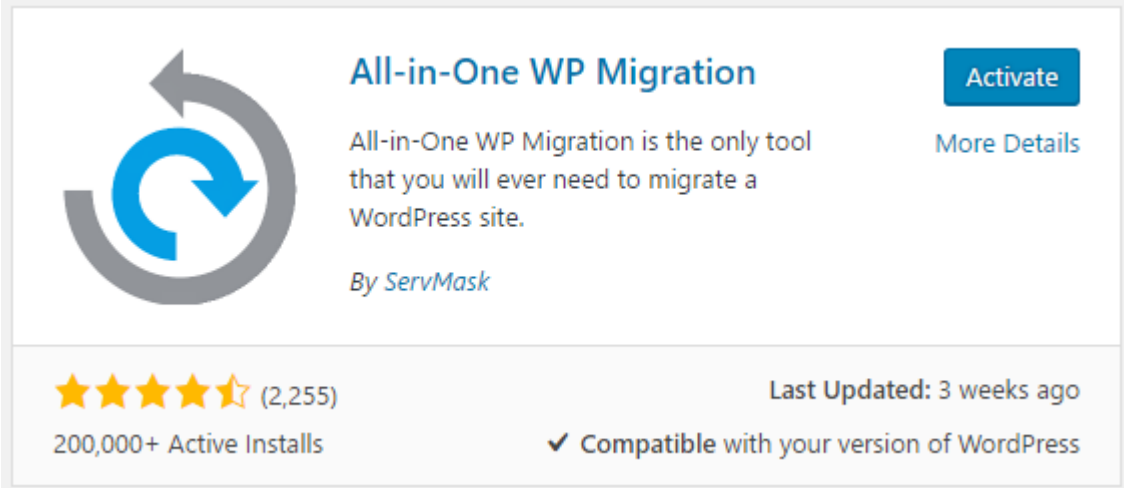

1. Install Plugin *All in One WP Importer*

Kemudian, pada bahagian search, masukkan ***All in One WP Importer*** kerana kita akan menggunakan plugin ini untuk restore file backup yang saya akan berikan nanti.

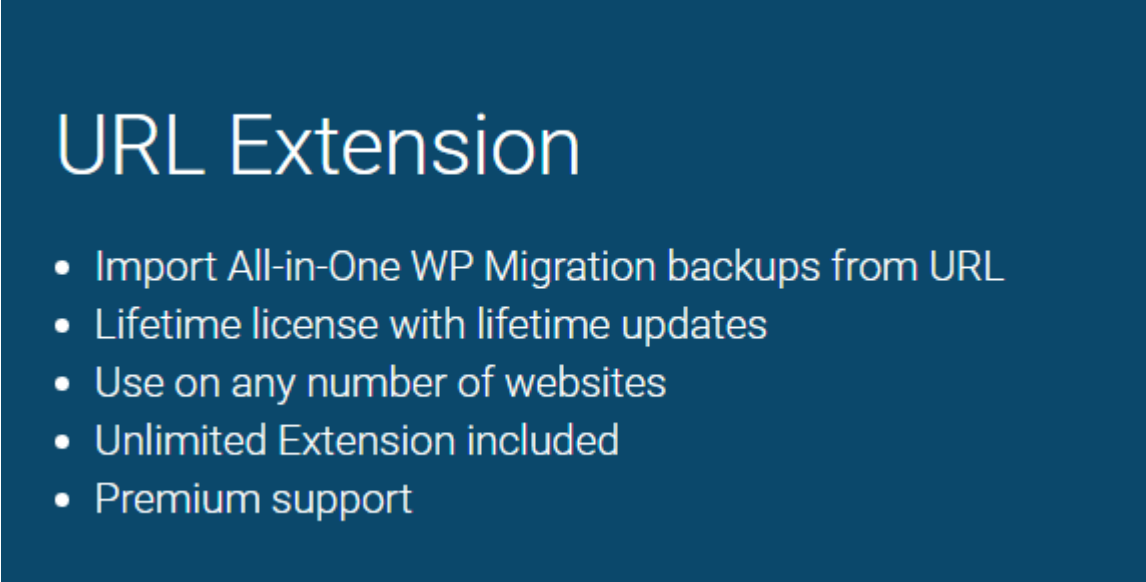

Klik pada butang ***Install Now***.

The image shows the WordPress plugin interface for 'All-in-One WP Migration'. On the left is a circular logo with a blue arrow and a grey arrow. To the right of the logo, the title 'All-in-One WP Migration' is displayed in blue. Below the title is a description: 'All-in-One WP Migration is the only tool that you will ever need to migrate a WordPress site.' and the author 'By ServMask'. In the top right corner, there is a blue 'Activate' button and a link 'More Details'. At the bottom, there is a star rating of 4.5 (2,255 reviews), '200,000+ Active Installs', 'Last Updated: 3 weeks ago', and a checkmark indicating 'Compatible with your version of WordPress'.

Kemudian selepas selesai proses ***Install***, klik ***Activate***.

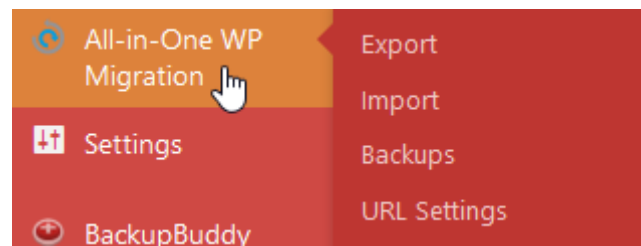

2. Install Plugin Tambahan: All In One WP Migration URL Extension

The image is a dark blue banner with white text. The title 'URL Extension' is at the top left. Below it is a bulleted list of features: 'Import All-in-One WP Migration backups from URL', 'Lifetime license with lifetime updates', 'Use on any number of websites', 'Unlimited Extension included', and 'Premium support'.

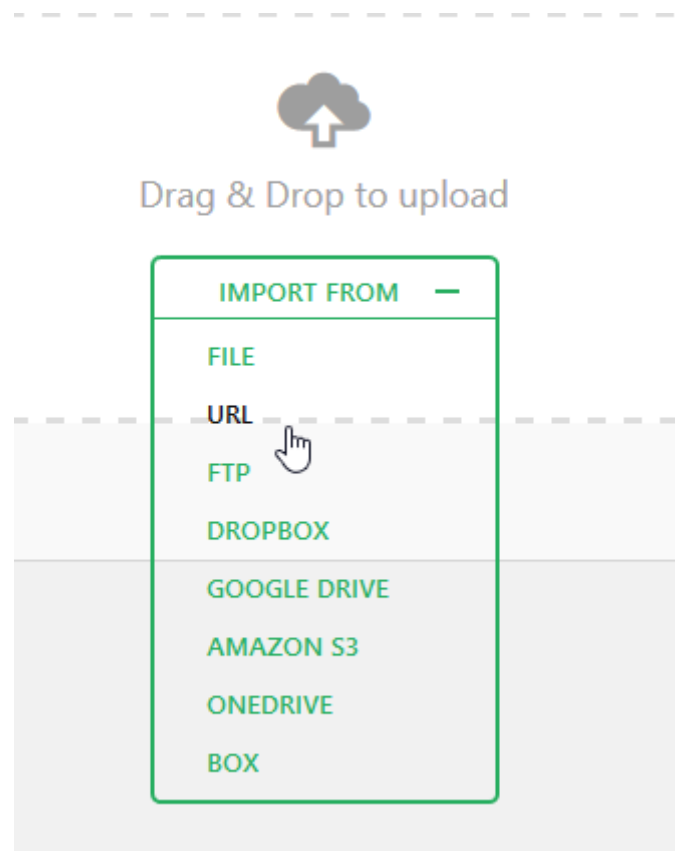

Okay sekarang ni, kita akan install lagi satu plugin untuk memudahkan proses restore file backup. Anda boleh dapatkan file tersebut disini:

<http://bit.ly/2dyoeSG>

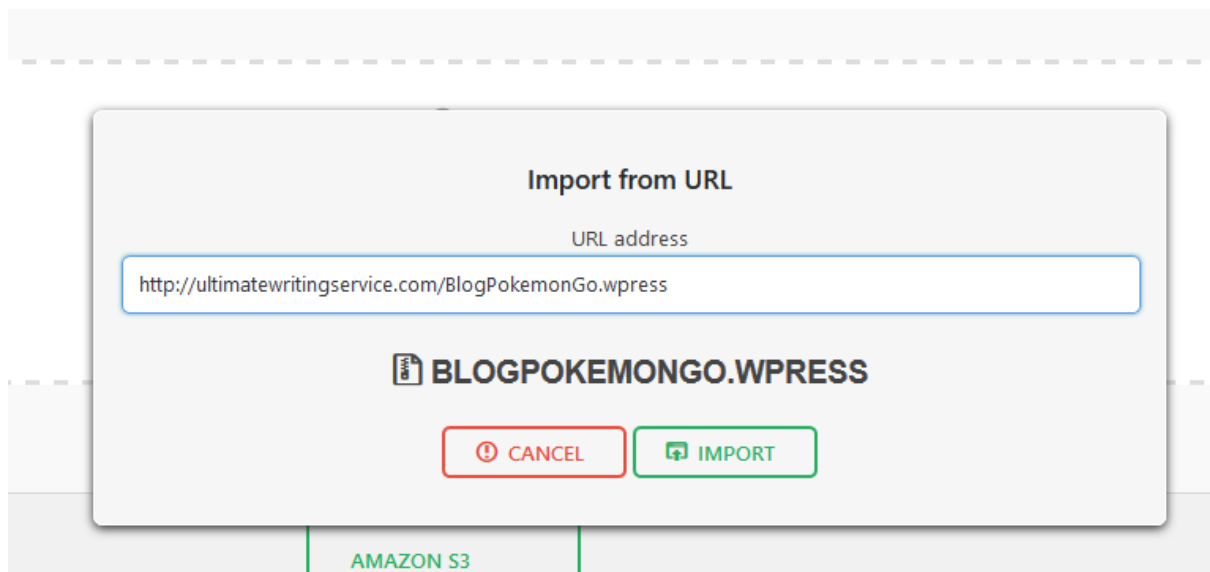

3. Import File Backup dari URL

Setelah anda selesai install plugin sebentar tadi, anda boleh teruskan ke setting ***Import***.

Pilih ***Import From -> URL***.

Masukkan URL ini ke bahagian **URL Address**:

<http://ultimatewritingservice.com/BlogPokemonGo.wordpress>

Seterusnya anda klik **Import** dan tunggu sehingga prosese *restore* selesai.
